Cell Differentiation, 22 (1988) 267, 268
Elsevier Scientific Publishers Ireland, Ltd.

Contents Volume 22

No. 1

T. Murakami, Y. Yasuda, S. Mita, S. Maeda, K. Shimada, T. Fujimoto and S. Araki (Japan)
Prealbumin gene expression during mouse development studied by in situ hybridization (CDF 00450) 1

T. Ohmori and Y. Maeda (Japan)
The developmental fate of *Dictyostelium discoideum* cells depends greatly on the cell-cycle position at the onset of starvation (CDF 00451) 11

V.V. Ivanenkov, A.A. Minin, V.N. Meshcheryakov and L.E. Martynova (U.S.S.R.)
The effect of local cortical microfilament disorganization on ooplasmic segregation in the loach (*Misgurnus fossilis*) egg (CDF 00452) 19

S.A.M. Karim, M. Flor-Henry and D.I. de Pomerai (U.K.)
Glucose metabolism in transdifferentiating and glucose-blocked cultures of chick embryo neuroretinal cells: an inverse relationship between glycogen and δ-crystallin accumulation (CDF 00456) 29

L. Pardanaud, C. Buck and F. Dieterlen-Lièvre (U.S.A.)
Early germ cell segregation and distribution in the quail blastodisc (CDF 00455) 47

T. Arita, R. Okamura, R. Kodama, T. Takeuchi, Y. Kadoya and G. Eguchi (Japan)
Density dependent growth of corneal endothelial cells cultured in vitro (CDF 00454) 61

M. Coltey, F.V. Jotereau and N.M. Le Douarin (France)
Evidence for a cyclic renewal of lymphocyte precursor cells in the embryonic chick thymus (CDF 00457) 71

No. 2

F. Harrison, L. Andries and L. Vakaet (Belgium)
The chicken blastoderm: current views on cell biological events guiding intercellular communication (*Review*) (CDF 00474) 83

C. Kalcheim and V. Leviel (France)
Stimulation of collagen production in vitro by ascorbic acid released from explants of migrating avian neural crest (CDF 00460) 107

E.T. Dobi, F.J. Naya and R.E. Hausman (U.S.A.)
Distribution of R-cognin and choline acetyltransferase in the ganglion cell layer of developing chick neural retina (CDF 00459) 115

J.J. Candelier, P. Gane, P. Couillin, J. Martal and R. Oriol (France)
Developmental modifications of sheep kidney antigens (CDF 00461) 125

A. Andrew, B.B. Rawdon and B. Kramer (South Africa)
Differentiation of intestinal and ectopic endocrine cells from avian gastric and pancreatic endoderm (CDF 00458) 135

A.T. Mikhailov and N.A. Gorgolyuk (U.S.S.R.)
Concanavalin A induces neural tissue and cartilage in amphibian early gastrula ectoderm (CDF 00462) 145

R. Ravazzolo, R. Barresi, C. Garrè, G. Bianchi-Scarrá and F. Ajmar (Italy)
Electrophoretic pattern of NADPH-dependent oxidoreductive activities in K 562 and HL 60 leukemic cell lines (CDF 00463) 155

M. Faure, M. Kalekine, E. Boy-Marcotte and M. Jacquet (France)
Developmental control of the expression of the dihydroorotate dehydrogenase and UMP synthase genes in *Dictyostelium discoideum* (CDF 00464) 159

F.J. Adroher, J.A. Lupiáñez and A. Osuna (Spain)
Influence of saccharides and sodium chloride on growth and differentiation of *Trypanosoma cruzi* (CDF 00465) 165

Acknowledgement 171

No. 3

V. Schmid (U.S.A.)
The potential for transdifferentiation and regeneration of isolated striated muscle of medusae in vitro (CDF 00478) (*Review*) 173

H. Grunz, W.L. McKeehan, W. Knöchel, J. Born, H. Tiedemann and H. Tiedemann (F.R.G., U.S.A.)
Induction of mesodermal tissues by acidic and basic heparin binding growth factors (CDF 00470) 183

S. Hamamoto, W. Imagawa, J. Yang and S. Nandi (U.S.A.)
Morphogenesis of mouse mammary epithelial cells growing within collagen gels: ultrastructural and immunocytochemical characterization (CDF 00466) 191

M.C. Guitton, B.T. Keller, D. Part, J. De Gunzburg, R.T. Borchardt and M. Véron (France, U.S.A.)
S-Adenosylmethionine, *S*-adenosylhomocysteine and *S*-adenosylhomocysteine hydrolase variations during differentiation of *Dictyostelium discoideum* (CDF 00467) 203

W. Karst and H.-J. Merker (F.R.G.)
The differentiation behaviour of MDCK cells grown on matrix components and in collagen gels (CDF 00469) 211

N.M. Troccoli and R.E. Hausman (U.S.A.)
Retina cognin does not bind to itself during membrane interaction in vitro (CDF 00480) 225

G. Trenn, H. Takayama, W.F. Davidson, H.C. Morse III and M.V. Sitkovsky (U.S.A.)
Organization of lymphocyte plasma membrane. Surface protein–membrane matrix interactions in B-cells lines of different stages of differentiation (CDF 00468) 233

J.L. Lognonne and J.P. Wahrmann (France)
A cell surface phosphoprotein of 48 kDa specific for myoblast fusion (CDF 00471) 245

Y. Mishina, Y. Matsui and M. Obinata (Japan)
Stage-specific gene expression in erythroid progenitor cells (CFU-E) (CDF 00472) 259
